Realism[] File:Jane's Fleet Command - online weapons reference.jpg The game includes a modern online weapons reference manual. Military realism is further emphasized by means such as the use of genuine NTDS symbology on the 2D tactical planning map. The feature allows players to interface directly with the software and provide a quantity relatively unlimited number of possible combat scenarios. Setting[] The game Å set in the late 1990s. The game is focused exclusively on the units contemporary. Å was developed by Sonalysts Combat Simulation and published by Electronic Arts (EA). This concept of realism in units leads to weapons, ordinance, speed, accuracy, radar coverage, detectability and survival of all units and weapons of the game. Notice the NTDS symbology. Although the initial release focused primarily on the U.S. Army, it included a wide variety of of forces from nations around the world including the UK, India, Russia, China and others. 7 hours ago General Discussions Music to play Fleet Command to Hi, try my little playlist instead of the default music in the game :) Harold Faltermeyer - Top Gun Opening Theme Harold Faltermeyer - MiG-28's Harold Faltermeyer - Dog Fight #3 Lockon Flaming Cliffs 2 DCS AH-64D Meteor - Fleet Guardians (Heatblur F-14 OST) .. Alleged objectives may be configured to be completed in pre-determined orders for the success of the overall mission. Moreover, only aircraft actually assigned to a particular class of aircraft carrier in the real are available on in-game aircraft carriers. The game was also released in a "Naval Combat Pack" of three games along with 688 (I) Hunter/Killer and and Calibron. The "Mission Editor" function is simple to use and relatively uncommon in other game software. The preset objectives can be attributed to the editor and displayed to the player at various intervals during the gameplay. They vary in difficulty from a four star, with four stars that are the most difficult. The first is a series of preset missions containing certain objectives. The actual forces under the command of a player can include units from different nations (a multinational force), or can be limited to a selection of forces coming only from the military arsenal of a nation. The game has licensed parts of the Jane's Information Group military database, which was used as a "Jane's Library", reference material that the player could refer to during the game. Prizes [Changelog | Cheaters | Codex codes | Compatibility | Covers | Credits | DLC Guide | Location | Poster | Modding Patch | Rating | Revisions | Screenshots soundtrack | Video | Realizationigog | In play | Origin | Retro PlayStation Trophies | Steam | Xbox Live Fleet Command, previously labeled as Jane's Fleet Command, is a real-time naval war simulation computer game published in 1999. In fact, the original version of the game included a single campaign (since then, several replacement campaigns are You are made by FC and NWP-FC enthusiasts). 29 Mar @ 2:38 AM General Discussions Solizers Combat Simulations Electronic Arts, Strategy First Combat Solizers Simulations Inc. The campaign scenarios are connected as if the player successfully completes a scenario in the countryside, this unlocks the next scenario in that campaign for the game. A scenario at a standing is not connected to other scenarios as are the scenarios of the Although they may be linked in terms of setting, theater of war, fighters, alliances, fictitious or historical conflicts, etc. This prevents the player from having heavy bombers (such as B-52) taking off or landing from aircraft carriers, something that never happens in the real world. If the player has selected the EMCOMS option, none of his units start the game with active sensors on; only passive sensors will be engaged. The 3dfx compatibility was retained and some players have reported better graphics using a Glide wrapper. The programming skills necessary are quite basic and are a credit to the ingenuity of the software designers. The graphics are smoother than before, but not using the Direct3D video mode instead of the 3dfx results in a darker 3D video display. In terms of gameplay, as a real-time tactics game it is a realistic military simulator and only involves resource management of weapons and the fuel of airborne aircraft. These missions contain specific goals that must be accomplished in order to be graded successfully. Tried following steps from this website: however I get an error trying to run the bat file. Gameplay[] File:Jane's Fleet Command - world map.jpg Tactical world map in focus. The changes in the new release are as follows: Removal of all references to the name "Jane's" in both text and art work Data revised using unclassified sources Reworked rendering engine to be DirectX 9.0c and Windows XP compatible Minor code improvements to improve Windows XP compatibility[1] The SCS-FC re-release has so far been quite reliable, stable and crash free. A second game play theme is to play one of four provided scenarios. Gameplay can be chosen from one of three different options. However, the game is limited in that it can only ever have the one campaign available to the player at any one time. Once the player is in the scenario, a 2-D representation of the forces available is presented. The game reflects that some of the world's military forces are more advanced than The game has been written for Windows 98, even if it turned (even if slightly less stable) on Windows 95. Jane's also licensed to EA the name "Jane's" and the "Jane's Combat Simulation" logo, and the game is It was marketed with the name "Jane's", very similar to the previous "Jane's Fighters Anthology", also published by Electronic Arts. These are generally verses of "wars" that require the player to win every subsequent challenge before continuing. This can be an effective strategy to keep the naves of the player not detected, but also blind their GC1 and let it "crawl in the dark", so to say. Like other real-time tactical games, losses cannot be replaced, which emphasizes the value of units and judicious use of them (although some scenarios make it impossible to save a particular unit). The game includes both leaders and terrestrial aerial bases. So far, no luck, any help is appreciated! ... Trivia [] The United States Naval Academy has installed the game in computer laboratories and used it to introduce the concepts of decision-making at the fleet level during its summer seminar program . Rendering D3D is more slow than the 3DFXGLID native rendering of the same map, even when using the latest cards compatible with Direct3D. This display also shows a representation of the sensor ranges (radar, visual, sonar, etc.) that any of its units has. Minimum and recommended specifications [] External links [] References [] A feature that has been deliberately kept out of the game has been nuclear weapons. On Windows XP, the game had serious stability problems and installation up to 1.34 and 1.38 patches and the XP installation utility / patch. [Re-Release Quote] Re-release [] On 26 October 2006 Strategy First republished Fleet Command as Scs-fleet Without the "Jane's" brand. 3 Apr @ 12:36 AM General discussions Command fleet game launch crash and gray game Button have problems with the game and every time I tsrif eht netfo era eseht ,elbaliava stej rethgif ro/dna tfarcia SCAWA sah reyalp eht fl .sečneuges oediv noitom-lluf fo mrof eht ni detneserp era stneve noissim dna emag eht fo hcuM .ecneuges VMF gpj.spilc VMF - dnammoC teelF s'enaJ:eliF .gniredner D3 a ni nwohs era stinu laudividnĭ .derutæf ton erew ecivres ni tey ton ro ecivres fo tuo erew taht stinu dna ,derutæf erew desaeler saw emag eht nehW ecivres ni erew taht stinU .noissim a no tenroH 81-A/F gpj.ecafretni dna noissim - dnammoC teelF s'enaJ:eliF .sseccus on htiw 3.91 1.2.91 2.91 snoisrev dom PWN eht llatsni ot gniyrT smelborp dom PWN .sdne oiranecs eht litnu htiw detrats yeht tahw naht erom evah reven nac reyalp eht dna ,oiranecs eht fo gninnigeb eht ta sah reyalp a taht stinu eht senifed oiranecs ehtĭ .citats yllareneg era stinu ymrA eht hguohtla ,emag eht ni delledom osla era stinu ymrA dna sproC eniraM ,ecroF riA .self llatsni eht htiw semoc taht launam eht dewollof osla ĩ ,oiranecs ngiapmac a ro oiranecs enola-dnats a gnitceles yb strats reyalp eht ,emag reyalp-elgnis a ni ĩĭscimanyD emag eht ni snoitarepo desab-dnal ot detimil yiralimis era efl laer ni snoitarepo desab-dnal ot detimil era taht tfarcia taht ni msilaer fo level a snlatniam ĩĭ .8002 ,02 hcræM ,yadsruht fo sa paTemaG no desaeler osla saw dnammoC teelF fo noisrev 6002 ehtĭ .edilG desu taht sdrac oediv dnarb oodooV tcnufed won eht fo esu eht rof yllarimip nettirw saw dnammoC teelF .sevitejbo dna htgnerts ecrof dna snoitaruignfoc nwo rieht tupni nac reyalp a erehiw ĩ ,gnitide noissim" dellac erutæf a gnisu si yalp emag fo epyt tsal ehtĭ .ecivres tneliS fo yrutneC A". The Lockheed S-3 Viking is a 4-crew, twin-engine turbofan-powered jet aircraft that was used by the U.S. Navy (USN) primarily for anti-submarine warfare.In the late 1990s, the S-3B's mission focus shifted to surface warfare and aerial refueling.The Viking also provided electronic warfare and surface surveillance capabilities to a carrier battle group. The Zubr class (Project 1232.2, NATO reporting name "Pomornik") is a class of Soviet-designed air-cushioned landing craft (LCAC). The name "Zubr" is Polish for the European bison.This class of military hovercraft is, as of 2012, the world's largest, with a standard full load displacement of 555 tons. The hovercraft was designed to sealift amphibious assault units (such as marines and ...
